Memo to File:

RE: Crater Exploration, Inc.  
Taylor Placer Operation  
ACT/019/016  
Grand County, Utah

Mr. D. L. Taylor (Taylor Livestock) telephoned the Division on August 14, 1984 to notify us that there may be problems with the placer operation on his property by the Colorado River. He stated that PMC, Inc., is two months behind in their rental payments to him. Mr. Taylor suspected problems and sent a registered letter to PMC, Inc. (Mr. Wilford Ruf), and it was returned as undeliverable.

I asked Mr. Taylor if there is any mining activity occurring presently. He cynically chuckled and said that "they have it all torn up."

Mr. Taylor doesn't want to be responsible for this. He, therefore, requested the Division ~~to~~ look into this matter as soon as possible and do what is necessary to remedy the situation.
